Languages: JavaScript, Ruby

Frontend: HTML, CSS, SASS, jQuery, AJAX, JSON

Relational Databases: MySQL, PostgreSQL

NoSQL Database: MongoDB

Frontend Frameworks: REACT

Backend Frameworks: Rails, Express, Node.js

Servers: Linux, Mongoose

Cloud: AWS, Heroku

API: REST

Education:

CarrerFoundry Web Development Course (Jan 2021-current)

- Full Stack Immersion Course
- Mentored by two industry professionals.
- Built a portfolio from scratch using HTML and CSS.
- Built a small web application with HTML, CSS, and JavaScript that loads data from an external API and enables the viewing of data points in detail.
- Built the server-side component of a movies web application that will provide users with access to information about different movies, directors, and genres. Users will be able to sign up, update their personal information, and create a list of their favorite movies.
- Using React, built the client-side for an application called myFlix based on its existing server-side code (REST API and database).

University of Central Florida (2016-2020)

- Bachelor's Communication Sciences and Disorders
- 2019 Spring Dean's List
